

Drag and Drop & Edit Online plugin installation

You need to install Webforum plugin in order to use Drag and Drop and Edit Online features. You need Administrator rights for your computer to perform the installation. Plugin works with Chrome and with Internet Explorer.

Plugin for Chrome and Internet Explorer:

- Drag and Drop files and folders from the file system to the Document archive
- Open documents so that they can be saved directly to the Document archive (Edit Online)

Plugin requires Internet Explorer 9 or later. PC operating system must be Windows Vista, Windows 7, Windows 8 or Windows 10.

Installing Webforum plugin:

1. Open the Documents module.
2. On the top right corner you can locate the text "Install Webforum Plugin" written in red. Click on the text and the installation process will begin.
3. Follow the instructions in your screen.
4. Reopen your browser after the installation is finished.
